YEA Event at Sweetwater January 23rd, 2014

American Society of Heating, Refrigerating, and Air Conditioning Engineers, Inc. Published by the Atlanta Chapter, Atlanta GA. Statements made in this publication are not expressions of the Society nor of the Chapter and may not be reproduced without special permission from the Chapter.

January 2014

It's a new year, and a great time for a fresh start. How about resolving to be a more active member of ASHRAE?

We have so many great events coming up in the Spring to meet and network with members. Our annual refrigerigeration tour (beer, anyone?), Spring golf tournament, and Life Members and Past President's luncheon are just a few of the many activities we can look forward to.

If you have a moment, please check your membership status. We have several members who are past due on membership dues. Not only does your annual membership fee support the activities of ASHRAE, you get all the great benefits of being a member. One of my favorite benefits is access to all the past ASHRAE journals in electronic, searchable format. There is a lot of great reference information there!

Our annual Red and Green Scene event co-hosted by fellow industry organizations was a huge hit! Many of our members reported an excellent turnout, great food, and a crowded dance floor. You won't want to miss this event next year!

Next month we'll have a dinner meeting with Dr. Tom Lawrence speaking. He's always a treat to hear, so I definitely recommend you make it out for that event!

Pamela Androff
Atlanta Chapter President 2013-2014
president@ashraeatlanta.org

ASHRAE Atlanta Chapter

February Dinner Meeting

Speaker: Thomas Lawrence, Ph. D., PE

Overview of Standard 189.1-2011 for High Performance Green Buildings

The U.S. Green Building Council's *Leadership in Energy and Environmental Design* (LEED) program was created in order to raise awareness and moving the marketplace toward a more sustainable design practice. This talk provides an overview of the various LEED programs, with an emphasis on the areas that are particularly important to MEP professionals. The current status and brief review of the contents for the new ASHRAE Standard 189.1-2011, *Standard for High-Performance Green Buildings, Except Low-Rise Residential Buildings* will be also be discussed.

***Speaker Bio**: Dr. Lawrence is a Senior Public Service Associate with the University of Georgia, and has 30 years of professional experience in engineering and environmentally related fields. Before going back for his Ph.D. in Mechanical Engineering at Purdue, he spent approximately 20 of those years in industry and consulting. He is the chair of ASHRAE Technical Committee 2.8, "Building Environmental Impact and Sustainability", and is a member of the committee which wrote the ASHRAE standard on high-performance green buildings (Standard 189.1). As an ASHRAE Distinguished Lecturer, he gives presentations and workshops on green building design at venues around the world. At the University of Georgia, Dr. Lawrence teaches courses in Building HVAC, Green Building Design, Residential Building Design, and Heat Transfer.*

Dr. Lawrence has a B.S. with Highest Distinction honors in Environmental Science from Purdue University (1978), a M.S. in Mechanical Engineering from Oregon State University (1982) and a second M.S. degree in Engineering Management from Washington University earned in 1989. He received a Ph.D. in Mechanical Engineering from Purdue University in the spring of 2004 researching the impacts of demand-controlled ventilation on energy consumption and indoor air quality in smaller commercial buildings

Meeting Info:

Date:	Tuesday, February 11, 2014 | 7PM-8:30PM
Location:	Maggiano's Perimeter, 4400 Ashford Dunwoody Road, Dunwoody, Ga 30346
Cost:	$35.00 Members, Free for Student Members of ASHRAE
Register and Pay:	http://www.ashraeatlanta.org/Events

Please help your chapter volunteers and **register by February 7, 2014**! This allows the chapter accurately order food from the catering company. Late registrations result in an increased registration cost of $50.

6:00pm-7:00pm : Cocktail Hour Come network with other industry professionals during our cocktail hour! A cash bar will be available during this time.

7:00pm-8:30pm : Dinner and Speaker The dinner meeting will include an Italian family style gourmet dinner. We will do introductions and provide updates on the Atlanta chapter, followed by the main presentation.

This Atlanta Chapter Newsletter goes by email only to all Atlanta Chapter ASHRAE members along with all other ASHRAE members in our area and anyone else who asks. If you need a change in our email list, please notify our Chapter Secretary at secretary@ashraeatlanta.org

Chapter Technology Transfer

Is Your Data Center Ready for the Polar Vortex?

By: Jason Verge

Is your data center equipped to ride out the Polar Vortex? This month's unusual weather pattern has brought frigid air to parts of the U.S. that don't normally see extreme cold snaps. Not to worry. Many data centers operate just fine in brutally cold weather, and your colleagues from these colder climates have tips on how to adapt.

There are many considerations to keep in mind when dealing with extended cold snaps. We're not talking about 60 degrees in Austin; we're talking Minnesota winters, here.

Facility Preparations

Here's a checklist of steps to prepare and maintain a facility in cold weather:

- Ensure remote monitoring panels are verified and all alarms are tested and working so you know right away if a generator block heater is defective or nonfunctional.
- Increase rounds on outside equipment
- Ensure temperature probes are calibrated correctly
- Watch weather forecasts often and abort or postpone maintenances in inclement weather
- Ensure 24/7 access to equipment by preparing for cleaning/shoveling
- Ensure backup battery start equipment is ready and available
- De-icing products are sufficiently stored
- Have critical parts on hand for Generators, UPSs, HVAC items, etc .in case there is a lengthy weather system.
- Salt is corrosive. Keep this in mind.

Components at Risk

- Generators: do you have additives in the fuel to protect against the weather? Do generators have functioning block heaters? "We store 24 hours of fuel per generator, that last 48 hours per pod," said Crosby. "I'm not a fan of more than that in colder environments. Less is more." "We ensure the right type and mixture of diesel fuel is in the tanks to prevent jelling or crystallization," said Spencer.
- Fuel: Speaking of fuel, can fuel providers make it to your data center given weather and road conditions? "Fuel freezing is a very real thing," said Crosby, CEO Compass. "A very cold spell puts a lot of pressure on the power clients. If you're in a peak area, and that generator needs to start – cold doesn't help.
- Air/Water economization equipment: There's been a big trend of data centers going to colder climates to take advantage of the cost savings. However, extreme cold limits economizer usage.
- Water: For those that keep retention storage of water for chillers and cooling, is the water frozen?

"Cooling towers, air conditioning units and generators are the main components of the data center affected by adverse weather conditions," said Cooper. "If not well sealed, air conditioning units can allow snow into the facility, while water lines located inside walls, which are often ignored, can freeze and break without proper maintenance."

This article is a portion of a full piece on this topic, located at this link from Data Center Knowledge. For more articles like this one, be sure to subscribe to ASHRAE's weekly newsletter, the HVAC&R Industry.

ASHRAE Atlanta Chapter

Membership Promotion

Membership Promotion (MP) News for January 2014

Happy New Year to all!! May this year be one of great grow and accomplishments on our endeavors. With that in mind, let's make 2014 our first "recession-free" year and move on to prosperous times again.

Member Updates

Well this month Chapter meeting was very insightful from what I hear. Let's keep the ball rolling and say hello to the following new members:

Mr. Gerald E. Cook	Mr. Adam Brown	Mr. Robert Martin	Mr. Tony Giometti
Mr. Anthony V. Le	Mr. Mark Venco	Mr. John M. Gallaher	Mr. Pius Lleogben

Thank you again for being part of our prestigious Society and especially of our Atlanta chapter, let's work together to make our chapter the leader of the region again.

Pedro Pacheco
MP Chair Atlanta Chapter

Ted Duffy
MP Co-Chair Atlanta Chapter

Employment Opportunities

Did you know that employers post job opportunities on the Atlanta Chapter website for free?

http://ashraeatlanta.org/JobOpportunities

You can even subscribe to the listings to receive an e-mail any time a new listing is posted!

NEW! Here is a list of some of the current opportunities posted:

- Senior Mechanical Design Engineer
- Software Test Engineer
- Pro E Design Engineer
- Mechanical Design Engineer

This Atlanta Chapter Newsletter goes by email only to all Atlanta Chapter ASHRAE members along with all other ASHRAE members in our area and anyone else who asks. If you need a change in our email list, please notify our Chapter Secretary at secretary@ashraeatlanta.org

Come join YEA for a fun filled trivia night at Hand In Hand! Come show off your awesome trivia skills (or lack of in my case).

When: Wednesday February 19, 2014 8:00 – 9:30PM
Where: Hand In Hand – 752 North Highland Ave NE, Atlanta, GA 30306
Cost: $0

Registration is not mandatory, but appreciated. Please confirm your attendance at http://www.ashraeatlanta.org/Events.

Please contact me if you have any questions.

Regards,

Sarah Young

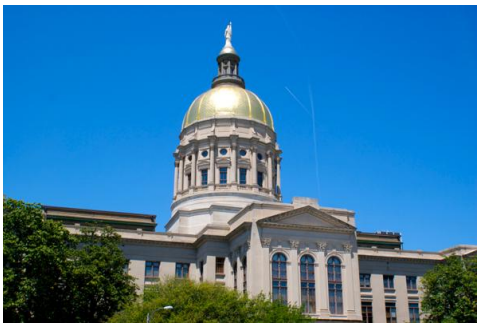
GRASSROOTS GOVERNMENT ACTIVITIES COMMITTEE



152nd Georgia General Assembly Convenes for Key Negotiations

On January 13, 2014, the Georgia General Assembly convened for the beginning of the 2014 legislative session. The session – spanning a maximum of 40 legislative days - is projected to be fast-paced considering this is a reelection year and the multitude of state issues to address. Legislators are equally concerned with remedying state issues as they are with returning to their home districts to campaign.

The key legislative agenda items for negotiation include budget, education, health care, gun rights and transportation.

Georgia State Minimum Code Standards Effective January 1, 2014

As a courtesy reminder, the following eight code editions became the minimum standards in Georgia, effective January 1, 2014:

International Building Code	2012 Edition
International Residential Code	2012 Edition
International Plumbing Code	2012 Edition
International Mechanical Code	2012 Edition
International Fuel Gas Code	2012 Edition
International Energy Conservation Code	2009 Edition
International Fire Code	2012 Edition
National Electrical Code	2011 Edition

The Georgia amendments to the above-referenced codes are available below:
http://www.dca.state.ga.us/development/constructioncodes/programs/codeAmendments.asp

Key contacts at the Georgia DCA – Construction Codes and Industrialized Buildings:

Max Rietschier	Lead Building Codes Consultant | 404.679.3104 | max.rietschier@dca.ga.gov
Bill Towson	Building Codes Consultant | 404.679.3109 | bill.towson@dca.ga.gov
John Watts	Architectural Consultant | 404.679.0617 | john.watts@dca.ga.gov
Austin Hackney	Energy Code Project Coordinator | 404.679.3127 | austin.hackney@dca.ga.gov
Calvin Jordan	Building Codes Consultant | 404.679.1739 | calvin.jordan@dca.ga.gov
Dee Leclair	DRBC Grant Project Manager | 404.679.7909 | dee.leclair@dca.ga.gov

Please contact me if you have any question or concern regarding the information provided above.

History Corner

McKenney's Mechanical Contractors & Engineers.

John M. McKenney opened shop just south of Atlanta in 1943, to recap tires for the Army during World War II. As the war came to an end, the newly named McKenney's Tire and Appliance Company began selling household appliances, including floor furnaces, to Atlanta-area residents. The company adjusted to the booming post-war economy by shifting from residential needs to light industrial and commercial work. On June 4, 1948, the company officially became McKenney's, Inc.

By 1952, McKenney's began taking on larger-scale projects, including multi-story commercial and residential work. John M. McKenney also began working with pipe fitter and sheet metal worker unions, building a skilled, reliable in-house workforce. Notable projects during this period included the Darlington Apartments in Atlanta and Charleston, Atlanta's Howell House Apartments, and the Alabama Livestock Coliseum in Montgomery.

In 1960, the company added plumbing to its list of services and began to partner with local general contractors. To accommodate the expanding business, McKenney's moved to a new facility in East Point, Georgia. The new building housed the first automatic coil line for fabrication of duct in the Southeast, as well as space for plumbing and pipe fabrication.

In 1972, McKenney's moved to its current location just off Moreland Industrial Boulevard in the heart of Atlanta. This marked the company's transition to second-generation ownership and management, as John M. McKenney's son David joined the company. McKenney's also established its service and energy management departments to accommodate a growing customer base and their changing needs.
Notable projects included the Omni Arena and Ice Rink, the Coastal States Building, the Peachtree Center Cain Tower, and Hartsfield Atlanta International Airport.

As metro Atlanta grew, so did McKenney's. The company formed new departments, focusing on interiors and special projects, design/build, and healthcare and research. The sheet metal shop nearly doubled in size, and a new material handling facility was added. McKenney's also opened an office in Charlotte, North Carolina, to serve its customers expanding to this location.
Notable projects included the 50-story IBM Atlantic Center tower in Atlanta, the Atlanta Apparel Mart and Gift Mart, Underground Atlanta, 191 Peachtree, One Peachtree Center and Nations Bank Plaza.

A growing customer base led McKenney's to open a third office in Chattanooga, Tennessee. The company also focused on specific markets for pharmaceuticals, bioengineering and medical laboratories, fiber optics manufacturing, the food and beverage industry,

and other high-tech applications. David McKenney's son John joined McKenney's, beginning the company's transition from second- to third-generation management, which is still in place today.
Notable projects included the modernization of Grady Memorial Hospital, Concourse E at Hartsfield Atlanta International Airport, the new Atlanta Hawks Arena and the Olympic Broadcast Center.

In 2010 and 2011, McKenney's was named one of Atlanta's and Charlotte's Best Places To Work by the Atlanta Business Chronicle and the Charlotte Business Journal, respectively. The company continues to offer top services at every stage of a facility—from Design and Build to Manage and Maintain. McKenney's is also exploring new technologies to stay on the cutting edge of smart and sustainable building practices to better serve its customers as the U.S. economy recovers.
Notable projects included Fox Theatre, Warner Robin Air Logistics Center and Building 89, Fort Gillem, Fort Benning, and Georgia Tech's Carbon Neutral Energy Solutions lab.

Note: History and information reproduced from McKenney's Website.

Reminder

We will be having our annual Past Presidents and Life Members Luncheon on March 14 at 11:30 am at Villa Christina. Please save the date and plan to attend.

Edward Hunda
Atlanta Chapter History Chair

Scott McClure
Atlanta Chapter History Co - Chair

SAVE THE DATE

The ATLANTA Chapter of ASHRAE invites you to join us…

What: " The Past Presidents and Lifetime Members Luncheon "

Who: All ASHRAE Past Presidents, ASHRAE Life Members and 50 plus year members

When: Friday, March 14th 2014 starting at 11:30am

Where: Villa Christina (located at 285 and Ashford Dunwoody Rd – map enclosed)
4000 Summit Boulevard
Atlanta, Ga. 30319

Tel. 404-303-0133

The meal will be provided at no charge, compliments of the Atlanta Chapter of ASHRAE.

Please join us for a great meal, time to mingle with friends and share our ASHRAE experiences.

We look forward to seeing you there!

Please email edhunda@workingbuildings.com or call 678-990-4319 to register.

Best regards,

Edward Hunda -Atlanta ASHRAE History Chair 678-990-4319
Scott McClure -Atlanta ASHRAE History Co-Chair 678-990-4319

PS- If you are in need of a ride, please let us know and we will make arrangements.

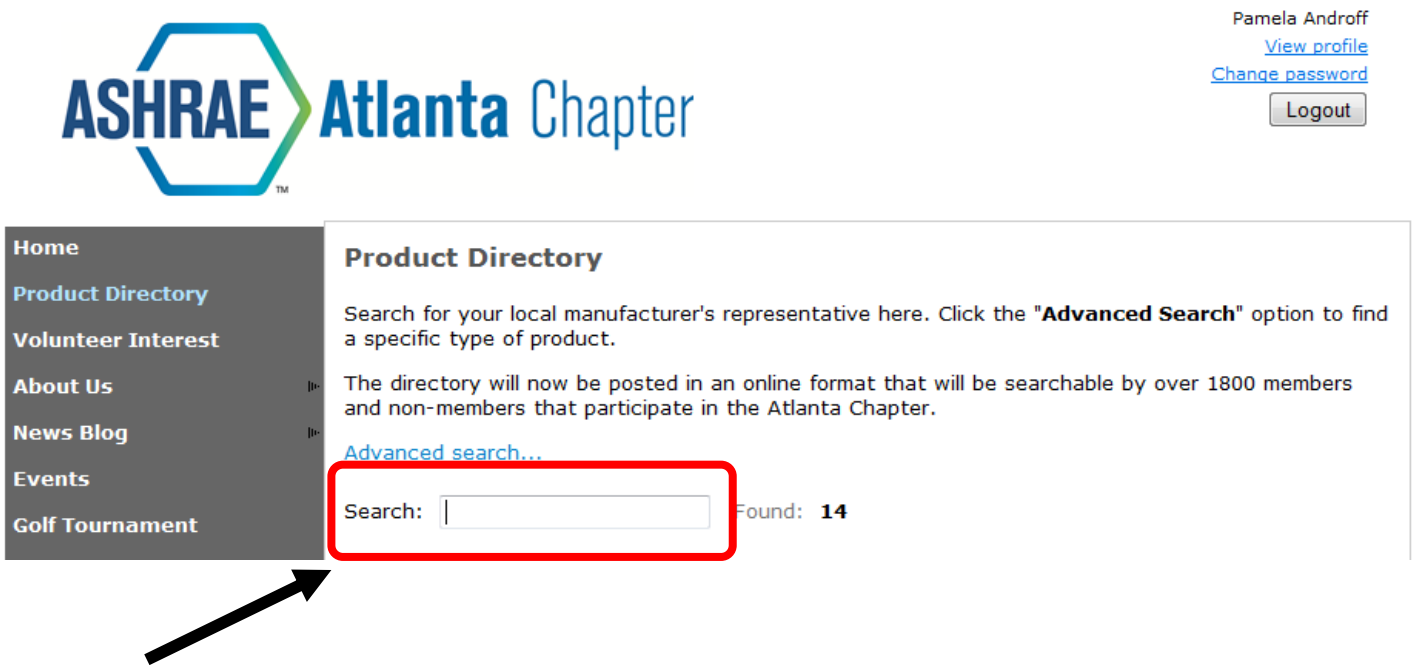
Product Directory

As a service to our Atlanta Chapter members, every other year we compile a Product Directory. The Product Directory is a tool to assist designers in identifying the companies and individuals who represent specific products or manufacturers.

Our Product Directory is **virtual**- available to you via our Atlanta Chapter Website. You can access it by visiting:

http://ashraeatlanta.org/DirectoryofProducts



Enter a search term here!

This Atlanta Chapter Newsletter goes by email only to all Atlanta Chapter ASHRAE members along with all other ASHRAE members in our area and anyone else who asks. If you need a change in our email list, please notify our Chapter Secretary at secretary@ashraeatlanta.org

ASHRAE Atlanta Chapter

How to Join ASHRAE?

Go to http://www.ashraeatlanta.org/ to start the process, click "Membership" on the horizontal menu bar. On the pull down menu, click "Join". Enter your email address in the box "Verify your E-mail status". A prospective member will then be directed to enter his or her email information. As a new member, your address will not be recognized, and you will be invited to "Register Now". After you complete registration, you will be directed to the Individual Information page where you can finally select "Join ASHRAE"!

Web Sites Reference List

Again this year, our use of the Internet to further embrace our goal of Modeling a Sustainable World will be continued. Please use the web sites listed below:

1. RSVP and prepay for each event through the Atlanta ASHRAE http://www.ashraeatlanta.org/. For events where meals are served, you must at least RSVP to ensure that there will be a meal for you. We encourage you to prepay, as this will speed your way through the check-in process.
2. Pay your Chapter dues of $40 per year directly to the chapter: http://www.ashraeatlanta.org/Membership. These dues are in addition to your Society dues and help fund the Chapter's programs and outreach.
3. Donate to ASHRAE Research Promotion. We have a fundraising goal of $44,000 this year, so please do what you can to help fund ASHRAE research. Donate here: http://www.ashraeatlanta.org/Default.aspx?pageId=748082
4. Join the "ASHRAE Atlanta Chapter" group on LinkedIn at http://www.linkedin.com/.
5. Access the Product Directory online at the Atlanta ASHRAE website. Please note that this feature is in the process of being updated.

CHAPTER OFFICERS 2013-2014

Brian Justice – President Elect
presidentelect@ashraeatlanta.org

Brian has been a member of ASHRAE for 8 years. He has served the Atlanta Chapter as Secretary, Treasurer, Research Promotion Chair for 2 years and Research Promotion Co-Chair 1 year. Brian brings 22 years experience in refrigeration & HVAC as a design engineer, applications engineer, consultant, and regional manager. He has worked for companies such as Hussmann, Carrier, Lennox, AAON, and now Joe Powell and Associates. Brian earned his Bachelor of Science degree in Physics from Presbyterian College, a Bachelor of Science degree in Mechanical Engineering from Clemson University, and a Master's in Business Administration from Brenau University.

John Pruitt – Treasurer
treasurer@ashraeatlanta.org

John has been a member of ASHRAE for 6 years. He has served the Atlanta Chapter as Research Promotion Chair for 2 years and Secretary for 1 year. John Graduated from Georgia Tech in 1998 with a Mechanical Engineering degree. Since graduating, he has worked with Johnson Controls in Atlanta as a project manager and account executive. John Lives in Marietta and is married with 3 daughters.

Rick Dustin – Secretary
secretary@ashraeatlanta.org

Rick is a graduate of Georgia Institute of Technology with a Bachelor of Mechanical Engineering. He is currently the Director of Engineering at McKenney's, Inc. with responsibility for the HVAC & Plumbing design team as well as the Building Information Modeling (BIM) team. He was a cooperative education student with McKenney's in college and has been employed full time for 21 years. Rick has been a member of ASHRAE for 20 years and has served on the Board of Governors for the local chapter.
